Featured in Costa Rica's architectural magazine, Su Casa in 2008 Casa Amanecer (Sunrise House) is an exemplary model for luxury homes. The house is located on the Pacific Coast just minutes from Manuel Antonio National Park and from the town of Quepos. Casa Amanecer is an indulgent one-bedroom masterpiece with vaulted ceilings and jungle views in every direction. Every detail is to the highest quality—from the manicured lawn and gardens to the fixtures and furnishings. Arrive in style by landing on the onsite helipad or by private air or ground charter, all in which we will be more than happy to assist in coordinating. The home has all you need to fit your comforts and necessities; high speed internet throughout the house, Jacuzzi and double shower, state of the art entertainment system wired throughout for interior and exterior listening, electronic window coverings, outdoor BBQ, sundeck and terraces. Manuel Antonio is an enchanting destination we called home for many years. We designed this home to focus on the elements we love most about the area; the views, nature, animals, foliage and added our own modern twist to make it truly one of a kind.
