The villa is fully air conditioned and beautifully decorated in a Balinese style and is one of the few houses in Manuel Antonio within walking distance of the beach. The house is designed to maximize the feeling of light and air, with floor to ceiling windows on each level facing the view of the ocean, lush rainforest, and stunning Pacific sunsets. Both of the upper levels have large balconies spanning the length of the house, which are perfect for enjoying dinner or drinks in the warm evening air, or even better - a massage from one of our many accomplished spa therapists. The balconies are also a fantastic spot for watching the abundant wildlife in the rainforest surrounding the house, and monkeys, sloths and tropical birds can be viewed without leaving your chair. The balconies overlook the ample private pool and garden area, complete with your own hot tub which is fantastic for an evening soak after a day at the beach. Bedrooms Casa Alegria sleeps 8 people comfortably, in 4 double bedrooms. The master bedroom is located on the top level of the house and features a queen size bed and an en-suite bathroom with large whirlpool tub and shower. Sliding glass doors allow access to the balcony, and the view that greets guests in the morning from this room is breathtaking. On the next level down are 2 more "master" bedrooms, located off the entertainment area. Like the primary bedroom, these both have en-suite bathrooms, balcony access, and unbroken views of the ocean and jungle.
